Dear Valued Customer

July 9, 2013

Subject: Conflict Minerals

It is Rockford Fastener, Incorporated policy not to supply Conflict Minerals (CM) from the conflicted area of Africa in any product we supply. The minerals in question are Tantalum, Tin, Gold, and Tungsten. With the exception of Tin we do not use CM in any product we supply. In the case on Tin, we have very minimal use of Tin (less than 0.01% of product supplied) and use only one supplier that has certified to us they do not get their Tin from the conflicted area of Africa.

- 1) Product purchased from Rockford Fastener, Inc. that is not Tin plated does not have CM.
- 2) Product purchased from Rockford Fastener, Inc. that is Tin plated (very rare) will not have minerals from conflict areas.

I hope this covers any concerns you have with the product we supply. If you have any questions please do not hesitate to contact us.

Sincerely,

Bryan Burgy

President

We Take Pride In Our Quality!
